

XAS CABINETS up to 60°C

The XAS range is used to dry and store glassware by injecting air into the working volume at an adjustable temperature up to 60°C. They are functional, easy-to-use and -to-clean, and energy efficient.

As beautiful as effective.

The inner and outer casings are made of steel sheets coated with epoxy paints. Durability. Control panel on top.

An easy-to-use temperature control.

C3000 PID electronic controller. Measurement by PT100 probe. Functions : delayed start, end cycle timer, repeat loop.

Double door.

2 security glasses. Shockproof.

Stainless steel shelves.

2 shelves delivered with XAS320.

3 shelves delivered with XAS800.

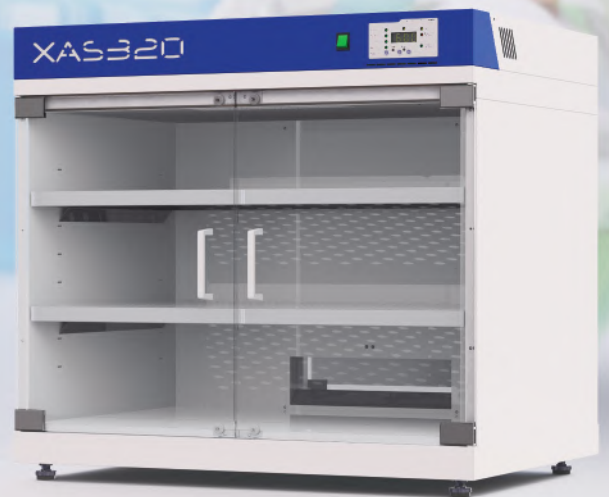

Multiple levels of loading. Perforated for better circulation of warm air.

Exclusive ventilation system !

Air is sucked by fan engines located in the top part of the oven. It is heated then blown out by the back bottom part.

This air recycling and a permanent air change allow an excellent drying of your glassware.

The moist air escape through an opening at the top of the cabinet.

Swivel castors with brakes.

Height adjustable. Easy movement.

Fixed feet.

Height adjustable.

XAS RANGE

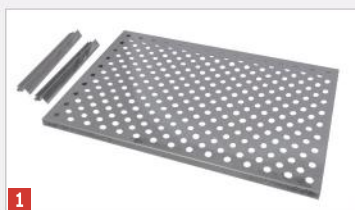

GLASSWARE DRYING CABINETS

TECHNICAL DATA

	XAS320	XAS800
SIZES		
Working volume (L)	320	800
Internal width (mm)	900	900
Internal depth (mm)	600	600
Internal height (mm)	600	1480
External width (mm)	946	946
External depth (mm)	713	741
External height (mm)	878	1836
Weight, empty (kg)	92	115
Number of door(s)	2	2
PERFORMANCES		
Temperature range (°C)	up to 60°C	
ELECTRICAL DATA		
Heating power (W)	2000	2000
Power	230V ~1P 50/60Hz, 16A	
LOADING SHELVES		
Maximum number	6	12
Maximum distributed load per shelf (kg)	30	30
Maximum load in the cabinet (kg)	60	120

ACCESSORIES

1 Shelf with guide bars

1 Shelf with guide bars
Stainless steel. Perforated. Maximum distributed load : 30 kg.

2 Subframe with casters (for XAS320)
Elevates the cabinet for a easier loading.
Swivel castors with brakes.
Shelf surcharge.

2 Subframe with castors
